

How to buy a car in Thailand

1. You go to the car dealer to negotiate about extras you can get for the price of the car when you want to pay cash. That is a family affair. You order the car for later delivery.

2. On the day of delivery you go to your bank and raise cash money 1.2 million (bath). You hurry back to the car dealer before somebody steal the money from you.

3. After you pay cash the car dealer hand over the car to you. The flowers are not part of the deal, he keep them.

4. You can now take the car back home.

5. The car must be blessed against accidents and bad drivers by a monk. In this case it is a "civilian" monk.

6. You are now ready to explore Thailand.

If you want you can spend a lot of money on stuff that make the car look more fancy.
